A round over €1 million in grants for selected beneficiaries!

Who are we?
We are a technology accelerator aiming to support the development of Future Internet applications to make cities smarter, more sustainable and more cohesive. We provide targeted support (dedicated funding and services) to translate novel concepts (new apps and services) into a proven business proposition. Our buzzwords: quality of life, mobility, resource efficiency, tourism.

What can we offer you?
A focused acceleration programme consisting of:

> A lump sum of €10 000 to prove the concept
> Access to a pro-active, networked environment to get connected with investors, potential customers and other relevant stakeholders
> A wide range of support services to speed up the development stage process (tutoring, matchmaking and networking events)
> An opportunity to access a second level of funding to receive additional resources (up to €75.000 and mentoring support) to translate the innovative idea into a pilot product

Who are we looking for?
SMEs, WEB-ENTREPRENEURS who are committed to developing innovative solutions based on FI-WARE General Enablers (www.fi-ware.org), with clear social and economic value.

What will you receive funding for?
The most promising ideas will be funded with a lump sum of 10.000€ for a 3-month project dedicated to:

> Designing the concept of the solution proposed (proof of concept)
> Compose a reliable business plan

10.000€

How to apply?
A fast and simple submission process via the online F6S platform www.f6s.com/fiware-soul-fi which requires applicants to:

> Answer to a simple and direct online form, presenting your team, idea, technology, market and plan
> A 10 slide presentation
> A 2-minute elevator pitch video of the team

Open Call deadlines
Launch of Open Call 1st Call 2nd Call 3rd Call
